

## FOR IMMEDIATE RELEASE

### Carlisle Interconnect Technologies Acquires Rosenberger/Micro-Coax Joint Venture

**September 15, 2016** (*St. Augustine, FL*) - Carlisle Interconnect Technologies (CarlisleIT) has announced they will acquire the Rosenberger/Micro-Coax **joint venture** based in Blackburn, UK (parent company Rosenberger Hochfrequenztechnik GmbH & Co. continues to operate as a separate corporation).

The Rosenberger/Micro-Coax (RMC) joint venture based in Blackburn UK has been a successful business for Rosenberger and Micro Coax and their customers for many years. June 10<sup>th</sup> 2016 CarlisleIT acquired Micro-Coax Inc. Since this time a number of management discussions have taken place regarding the future structure and direction of the RMC joint venture. CarlisleIT together with Rosenberger management have now agreed the best way forward is to step back from the joint venture and operate independently effective January 1, 2017.

The RMC employees will become CarlisleIT employees January 1, 2017 and the Blackburn site will commence trading as CarlisleIT, Blackburn.

Members of the CarlisleIT management team will be working with the RMC team in Blackburn throughout the next months to ensure smooth transmission related to this restructuring and to outline integration steps and ensure continued service to customers.

We will contact our customers with details of the pending name change in the near future.

We would like to thank the customers and employees of RMC for your continued support during the transition period and welcome you all to the CarlisleIT family.

### **About Carlisle Interconnect Technologies**

[Carlisle Interconnect Technologies](#) (CarlisleIT) is a division of [Carlisle Companies](#) (NASDAQ: CSL), a world-wide, vertically integrated leader in the production of high performance interconnect solutions across industries. CarlisleIT is one of the world's leading designers and manufacturers of high-performance wire and cable, including optical fiber.
